Foreword

LOYALTY has for many years been the true prevailing spirit at P.B.H.S. This year, the goal of the Bluff Staff was to capture and highlight this reigning characteristic.

In Sports, Organizations, and Academics, a sense of LOYALTY blends to bring forth the best efforts of all concerned for the betterment of this school, which is the foundation of the future.

Through Sports, students can show their ability to be loyal; not only to their team, but to their school as well.

The various Organizations offer an excellent opportunity to teach young people of our great age co-operation and capability to work successfully with others.

High Academic standing, however, should always rank foremost as the goal of each and every student. Without the worthy deals of our studies, there would be no reason for sports participation or membership in organizations. What better place could be found to practice LOYALTY than in the classroom? Here we are offered an excellent challenge to demonstrate the true Spirit of Poplar Bluff High School.

Campus Functions Bring Highlights

To P.B.H.S.

The curriculum offerings of the Popular Bluff Senior High School have been broadened in the past year. We feel that this will enable the students to be better prepared for either higher education or a work situation.

There is more interest in the Public School's Educational Program by lay members of a Community than ever before. This has caused many critics of the American Educational Program to make their appearance. I sincerely believe that this should have a salubrious effect on the entire program.

There is a great demand for trained individuals in our society today. It is my wish that our school will meet this need.

To be loved one must have the respect of others. To have the respect of others one must have the respect of self. To have friends one must be a friend. The best way to achieve the good things in life is to forget self and serve others. Be kind to others and it will return to you three fold.

It has been a real pleasure and experience to have lived with you these past three years.

It has made my life a little bit richer because of association with you.

Cordially yours,

Language and the use of words is one of the most powerful forces in the world today. The supreme expressions of man's ideals have been made possible by this art. Men's minds can be shaped or freed; the knowledge of language provides power do good or evil. Many times a nation's whole background and heritage can be found in its words and the way that it expresses itself.

Accordingly, our duty as students is obvious--to learn as much as we can.

Since we grow in our capabilities for richer living, it is necessary to each of us to be openminded and interested in the things which surround us. Since the arts are concerned with out emotions and feelings a person can discover his major interests through them.

Every student must develop his own values and standards. These personal standards must grow, broaden, and mature.

Science is a series of events in which one happening always follows another. Over the years these occurrences have been accumulated and recorded. Through this scientific knowledge we are becoming more able to predict and control many events.

Through our own science department, we, the students, may learn scientific methods and develop scientific minds. This is preparation which is needed, for in a few short years we will become the future scientists, continuing an endless search for scientific truth.

Physical fitness in our modern day world is of utmost importance. The President of the United States has shown considerable interest in this phase of our education. He employed Mr. Charles B. One point that was stressed was the need of 15 minutes of vigorous exercise each day. P.B.H.S. offers the students a variety of physical activities.

Vocational Agriculture . . .

Preparation For A Challenging Career

Skillful management of our country's land is essential to the wealth and prosperity of America, and feeding the nation's increasing population is one of the most important functions of farming today.

At P.B.H.S. the goal of the Vocational Agriculture Department is to convey as much knowledge as possible about the cultivation of the earth, growing crops, and raising livestock.

The student teachers are an extremely valuable asset to the Vocational Agriculture Department.

Features

The past three years at P.B.H.S. will always be remembered as the "Loyalty Years." They have been busy years, offering many challenges to those who sought the finer things.

Through the efforts of highly educated and experienced people, each student has had the opportunity to know how it feels to be a part of perhaps the greatest organization that could ever be.

We have found that Loyalty is not something tangible. It is a feeling, a true spirit, that grows in the students that have learned its true meaning.

In the 1962 Bluff, we hope you can recapture the thrills that you have experienced through Loyalty at P.B.H.S.

There are four letters at the bottom of the Honor Society pin. They are C S L S: Character, Scholarship, Leadership, and Service. In this combination of ideals lies the secret of the National Honor Society's position of esteem in institutions of learning all over the country. To impart dignity to the name "student" is the now realized ambition and perhaps the most worthwhile organization established in high schools.

"It's Twilight Time"

Yes, "It's Twilight Time" for the seniors at P.B.H.S. After many weeks of preparation and work, the gymnasium was transformed into a beautiful arrangement of twilight time.

When the couples arrived with their dates, they knew also that this night would be remembered long after the streamers and decorations were removed.

Now, almost a year later, as we enter the gym for ball games, assemblies, and recreation, we still remember the draped crepe paper, the fun we had, and the memories of that night in twilight time.

Sadie Hawkins Dance

Once again the students of P.B.H.S. could let down their hair at the annual Sadie Hawkins Dance. Candidates were chosen from each class to compete for the title of Daisy Mae and Lil' Abner.

The girls' gym was decked from head to toe with the informal atmosphere created by the Dogpatch style of dress and setting. Everyone took part in the various activities. There were "shotgun" weddings performed by "Maryin Sam" Minetree and the sale of corncob pipes.

The highlight of the evening was the crowning of Becky McPheeters, as Daisy Mae and Clark Cornelison as Lil' Abner.

El Circulo Español

Striving for harmony between the United States and the Spanish-speaking countries of the world is the ultimate goal of El Circulo Espanol. To achieve this goal we must have a greater knowledge of the culture of these countries, their customs, and particularly their language. With initiative and education, high school students can obtain this goal of importance in the world today.

Today has become very important because of the move toward the atomic age. The science club members have entered into this organization for one reason, and that is to promote scientific experiments and to carry on discussions which can not be carried on in class. Members of the science club recognize that they must conduct their scientific ventures in class and in outside activities to widen their scope of life, and prepare themselves for a more prosperous future.

OFFICERS—John Ruser, *Vice-President*; Nicholas Tibbs, *President*; Ilsa Prinz, *Secretary-Treasurer*.

Professional education in mathematics is growing more and more important with every step that is being made into the future of science. Through enlightening discussions, and speakers of their own club, they are gaining much knowledge in this field. For the math classes, this department of P.B.H.S. is trying to relate theory to practical experiences.

OFFICERS—Pat Bennett, *President*; Jean Pulliam, *Secretary*; John Ruser, *Vice-President*.

Tommy gives Rodger some unsolicited aid at his Dramatics Club tryout.

The Dramatics Club has, this year, taken an entirely different standpoint in the field of learning dramatics. Not only did they put on their annual play and playlet at Christmas, but resolved to learn more thoroughly the speaking expressions and voice inflections for the reading of poetry, prose, and other verbal compositions. Foremost in the mind of each member was the desire to act and portray characters effectively.

Library Club

It is not a hard thing to become interested in good books. The members of the Library Club can tell you that. A book, like anything else, needs care, and this care is left up to the members of this organization. As long as there is a need for people who are concerned about each small storehouse of wisdom, there will be a Library Club.

F. F. A.

Missouri has long been known as a land of rich, rolling farmlands where quality crops and livestock are abundant. One reason for this is the fact that our young men have been, and continue to be interested in improving the agriculture of this state through learning. This interest has been brought to a focal point in the Future Farmers of America. F.F.A. plays a very important roll as an extension of the agricultural program of this school and our state.

Projector's Club

The Projectors Club is an offspring of the modern audio-visual program, whose aim is to give the teachers more teaching time, permit students who wish to run the projectors to have this opportunity, and in general to fulfill its desire to serve others while helping in the advancement of knowledge. This group is well-trained; adding to the efficiency of the classroom.

The Greeks were the first to give a name to the science of life . . . biology. Since that time of long ago, we have been rapidly advancing so that we are now on the threshold of almost unbelievable scientific achievements. We live in a thrilling age; one in which there is more enthusiasm and pursuit for biological knowledge than ever before.

This highly advanced and specialized branch of science has aroused a great desire among numerous biology students, so that they have united together to form the Biology Club.

Chorus

Music is a language which everyone understands. This language is communicated beautifully by the Girls Chorus of P.B.H.S. These girls study music as well as perform at assemblies, concerts, baccalaureate, and commencement. The spring concert, held annually, climaxes the year for this group.

OFFICERS—Lana Crites, *Vice-President*; Kathy Lade, *President*; Joanie Sullivant, *Secretary-Treasurer*.

Lé Cercle Francaise

"Language is the key of the universe." Now more than ever before this statement has become more realistic as crises mount in the world around us. It is becoming necessary that we understand our neighbors, their customs, and their language. The goals of the Lé Cercle Francaise are to promote better understanding and good will toward foreigners and bring our world closer together in a bond of common language.

Band*

The "band aids" are always present at pep assemblies.

Whether it be to the stirring throb of the marching drum, or the flowing tempos of the concert pieces, the band members enjoy playing their best. However, this best is only achieved through hard work. Our band does work hard, and will continue to, for the continuation of interest in music in this school and in Poplar Bluff.

Senior Class Favorites

With high ambitions, the class of '62 entered Senior High to begin our Sophomore year. Despite the confusion of our new home, we adjusted to life in P.B.H.S. We were guided by the capable hands of our president, Joe Gray. Our major social event was the Valentine Dance.

In our Junior year we worked on many projects and activities. Our new leader was Bill Dowd. We sponsored the Junior-Senior Prom, "Twilight Time".

Our goal of seniority was finally reached. Our years of study in P. B.H.S. were at an end. Graduation Day brought the fulfillment of all our dreams. As we leave, we shall take with us many remembrances of our life at P.B.H.S.

DEAR READER:

Before you close your 1962 BLUFF, we want you to know the friendly Poplar Bluff businessmen who have so generously contributed through their advertisements in the following pages. They continue their support so that we can record our school year for you.

We urge you to give them your consideration in the future as you make your purchases.
